

HAND HELD METAL DETECTOR

ROBUST AND RELIABLE HAND HELD METAL DETECTOR

A high performance Hand Held metal detector is designed to meet the exact requirements of the security industry. This hand held metal detector is a robust and reliable design to meet strict security requirements with low battery consumption. Used in conjunction with walk through metal detectors in numerous security screening applications.

FEATURES

One switch operation-turn it on and begin using it
Does not require any adjustments
Rugged and robust design
Rugged, high impact ABS case with reinforced coil compartment
Large 10" scan surface for quick, thorough scanning
Sharp audible alarm and bright red LED lights indicates the detection of metal
Vibration function enables operators to work silently
Green LED light indicates "on"
Amber LED light indicates low battery
Red LED indicates alarm

APPLICATIONS

Airports
Correctional Facilities
Public Buildings
Private Buildings
Schools
Special Events
Loss Prevention
Transportation Terminals
Courthouses

SPECIFICATIONS

Detection Sensitivity	2.5mm diameter steel ball
Alarm	Video LED and audio/video LED and vibration
Power Supply	9V fold battery
Power Consumption	270mW
Working Frequency	22Khz
Current	more than 50mA
Net Weight	409grams
Dimension	410mm (L) x 85mm (W) x 45mm (H)
Operating Temperature	-5°C - 55°C

REGULATORY INFORMATION

Extensive research has found no information that would indicate Hand held metal detector products have adverse effects on pregnancy, medical devices (such as pacemakers) or magnetic recording media. However, directives by physicians and medical device manufacturers regarding metal detectors devices should be followed.
